PIONEERS CONVENTION.

Annual Session of the Michigan Pioneer and Historical Society.

LANSING, June 1. - The Michigan Pioneer and Historical society met in its eighteenth annual convention at the senate chamber here today and will continue through tomorrow. There is an unusually large number present, the number including the venerable ex-Governor Fitch of Ann Arbor.

The report of Secretary Green shows that there have been 765 enrolled as members of the society, 265 have died and the present membership is 500. Seventeen members have died during Seventeen members have died during the year, including ex-President Frincis A. Dewey, Cambridge; Owen Pappleton, Birmingham, and M. H. Goodrich, of Ann Arbor. The death roll as reported from counties has been unusually large, not especially within the ranks of the society, but among old people generally. The last legislature appropriated \$400 for the publishing fund, and from it volumes 17 and 18 have been published at an expense of \$2100. The report of the treasurer shows a balance in the treasury of \$224.14.

The program of the afternoon consisted of a reading of the minutes of the meeting of 1891, report of the recording and corresponding secretary, and of the treasurer, of the committee of h storians, of the memorial committee by counties,

PEOPLE'S LEADERS MEET.

Inferences Drawn from a Notable Gathering at Lansing.

LANSING, June 1 .- There was a conference of what may be termed "original" greenbackers here today, con-sisting of William P. Innes of Grand Rapids, W. D. Fuller, supreme court reporter; L. V. Moulton, A. E. Cole, president of the Farmers' Alliance; A. J. Wickham, state agent of the Farmers' Alliance Business organization; Dick Trevellick of Detroit, John H. Dennis of Hastings and John M. Potter of Lansing. They were not giving out the object of the content few things newspapers, but from the few things and, and the many not said, only one inference could be drawn, and that was that an attempt would be made to conduct the people's party, which convenes here on the 16th, straight into the democratic fold. It is generally conceded from the managers to the rank and file that the democrat outlook is not promising in Michigan this fall, and that independent action of the people's party as now organized would be an element of weakness in the democrat campaign Of course the price for this manipula tion will be large, but if the partie comprising the conference can bring i about, they can without doubt be re-instated at the public crib provided the party is successful.

AFTER A FAT TAKE. A Saginaw Printer Will Search for

Treasure. Saginaw, Mich., June 1 .- Two thoumnd dollars in gold and silver was found in the celler of a house in Mid-land that was once occupied by "Hank" Farrington. It is supposed the money was concealed by him in 1870. Farrington was a jeweler in Saginsw and neighboring towns for many years and was suspected of being connected with a gang of counterfeiters.

In October, 1874, a man named Stewart, in Au Sable, Mich., was murdered and robbed of several house marketed

and robbed of several hundred dollars. Farrington was convicted of the crime and sentenced to the penitentiary for

After serving some years he was pardoned and went back to Au Sable,
where an old indictment against him
was ravived. Being warned he embarked in a small boat with the intention of escaping to Canada, but the
craft was capsused in a sterm and Farrington was drowned.

His son, a nrinter employed in a Saginaw newspaper office, will take steps
to recover the buried treasure.

WHY HE DID IT.

A Rogers City Young Man's Excuse for

Rosens Crry, Mich., June 1.- William Diets of Belknap was found lying by the roadside in a dying condition, she the roadside in a gying condition, about seven miles from Regers City, yesterday. A thenlibre Winchester rifle and a large class-knife were lying bonde him. He had fired two chois from the rifle, using a stick to press the trigger. Both shots took effect, one immensately above, the other just below the region of the heart. When found he was trying to out his threat with the knife,

said, Secause his mother had ceased to love him. He was 23 years of age and for the past three years had been suf-fering from melancholia.

### REASONS WHY

Dr. Price's Cream Baking Powder Is The Best.

FIRSTLY.—It is the oldest Cream of Tartar Baking Powder in the world, and has stood the test of 40 years.

SECONDLY.-Its makers have never succumbed to the temptation to introduce ammonia or alum in their goods, for the purpose of cheapening the cost,

TMRDLY.-It is made from the purest Cream of Tartar, refined in the immense plant at Jersey City controlled by this company, by patented processes used by no other refiner.

FOURTHLY .- The governments of the United States and Canada have endorsed Dr. Price's Cream Baking Powder after thorough examination, as have also the heads of our great universities, prominent physicians, boards of health and the public. It is used in the United States Army and Navy and in the cuisines of the most select clubs, hotels and private

FIFTHLY.-It is just what it is represented to be, viz: a pure Cream of Tartar powder and can stand on its record without any bolstering up by means of fraudulent certificates, or resorting to any other tricks practised-sometimes successfully-by other makers of so-called "absolutely pure" powders

DAVIS WAS RIGHT

Twenty-Seventh Meeting of the State (Allopathic) Medical Society.

Dr. Davis of Chicago Strongly Denounces the Use of Stimulants and Narcotics.

INCONSISTENCIES OF THE ALLOPATHIC TREATMENT

Reports of the Doings of the Michigan (allopathic) State Medical Society at Their Annual Meeting in Flint, Mich., Taken from the Detroit Free Press, with

Additions, Digressions and Remarks by the Author of Them

"After the Mayor's address President Ranney introduced the venerable Dr. N. S. Davis of Chicago, distinguished medical author and the founder of the American Medical Association and ex-President of the International Medical Congress. (See Detroit Free Press, May 6, third

Dr. Davis spoke for several minutes in a general way, and dwell upon the advantage of making use of every minute's time during the convention."

"Dr. Davis of Chicago read an interesting an instructive paper upon Therapeutic Inconsistencies in Medical Practice,' in which he advised the total tabooring of stimulants and narcotics in all diseases, claiming that the bad effects of them more than equaled the sceming betterment of a patient's condition immediately after their use. Dr. Davis was roundly applauded for his scholarly and pointed way of handling his topic."

A DIGRESSION-THE PICKPOCKETS HAVE IT.

How nice it would sound if 400 professional pickpockets should meet in a large hall and the cinest of their number (and two old to pick pockets with safety) should get up and say:

"Gentlemen, it is very wrong to pick pockets," and the others say with one voice:

"Yes, it is very wrong."

Old Member-"It is very wicked to pick pockets, gentlemen." Chorus from the Others-"Yes, it is very wicked, to be sure." Old Member-"It is against the financial condition of those whose pockets we pick, gentlemen." Chorus Other Members-"Yes, it is; that is a fact."

Old Member-"Gentlemen, I am overpowered with the brilliant idea that it becomes very inconvenient sometimes to those whose pockets we

Chorus, Other Members-"Yes, it is quite inconvenient sometimes." Then loud cheers, great applause, as the whole nest of thieves are greatly amused at the pointed manner in which the Old One puts it.

They then adjourn to pick pockets as before. But to resume.

We are somewhat surprised at the principles he advocates, but is not Has he not, at this late date, after Dr. S. Clay Tood, the famous spe-

cialist of Grand Rapids, Mich., has published the same ideas for thirty years, just now undertaken to gain a free advertisement, by lecturing before this medical society, against the use of stimulants and narcotical The public will find the same ideas in Dr. S. Clay Todd's advertise-

ment for thirty years, and they have just been discovered by Dr. Davis, who has possibly been reading the Grand Rapids Democrat since he arrived in Michigan. But it will be of no use to anyone but Dr. Davis. He can make what

capital be can of it, by making the public believe he is a follower of Dr. S. Clay Tood, and in no relation in principle or practice to his allopathic brethren; but his associates, the allopathic physicians, although they loudly applauded his remarks, cannot carry out his precepts, and do not intend to, as they could not practice an hour without the use of stimulants and unreotics, both. Take them away and the Allopathists, or Regulers, as they call

themselves, have nothing left; they would have to go out of business

Stimulants and narcotics are the curse of the Allopathic practice and show their effects on almost all their patients, and talking against

The fact is the Allepathic Practice is suffering from a rapid decline in the confidence of the dear people, and needs bolstering with some good talk and some decent principles, but simply trying to catch on to the coat tails of Dr. S. Clay Todd will not alone, put them in a position to cure disease, which is what the public demands in a physician.

Dr. Davis leaves his associates in the same situation that Col. Bob Ingersoil dees his hearers. Cot. Bob tells them how they can escape religion, but gives them nothing to take the place of it.
